**EEA/CA/2018/1****Project Manager – Waste management and prevention Contract Agent (FG IV)**

The European Environment Agency (EEA) is organising an open competition with a view to recruiting a contract agent to work as Project Manager in the area of waste management and prevention and further with a view to establishing a reserve list.

## THE AGENCY:

The EEA is an Agency of the European Union (EU) and one of the decentralised Union bodies. The EEA aims to support sustainable development and to help achieve significant and measurable improvement in Europe's environment, through the provision of timely, targeted, relevant and reliable information to policy-making agents and the public.

The EU waste policy agenda is geared towards reducing the environmental pressures from waste through implementing the waste hierarchy, with prevention and reuse of waste, reduction of landfill, and increased recycling as its highest priorities. The EEA, assisted by the European Topic Centre on Waste and Materials in a Green Economy (ETC WMGE) and country experts in the European Information and Observation Network (EIONET), supports this agenda with indicators, assessments, policy analyses, as well as hosting the European reference model on municipal waste.

Interaction with key policy stakeholders and capacity building within EIONET are important elements of the work. The recent focus of the European Commission on better implementation of waste policies and circular material use has reinforced this area. Using waste predominantly as a resource requires a transformation of how materials and products are managed in the economy, including their design for recyclability, re-use, and de-toxification. These concepts go beyond traditional waste

---

management, linking waste to the whole life cycle of materials and products.

## **JOB DESCRIPTION:**

Under the responsibility of the Head of Group – Green Economy, reporting to the Head of the Integrated Environmental Assessments Programme, the Project Manager will lead EEA and ETC WMGE activities on waste management and prevention in the context of the circular economy. This will include, inter-alia, indicator development and maintenance, assessments, modelling, and collaboration with EEA member and cooperating countries through Eionet.

Close collaboration will also be needed with Eurostat, the Joint Research Centre, DG Environment, DG GROW, OECD, and UN bodies. The Project Manager will also contribute to cross-cutting activities in the EEA, especially integrated environmental assessments, including for example regular indicator reporting, regular assessments of the state of the European environment, and activities on green economy, sustainable consumption and production, and resource efficiency.

The position will entail the following tasks:

- Lead EEA contributions to better implementation of waste policies, in close cooperation with the European Commission and the EEA member countries. This includes thematic assessments, regular reviews of national waste prevention activities as stipulated in the EU Waste Framework Directive, and related stakeholder interactions;
- Lead EEA contributions to improving the knowledge base in the EU on waste management and prevention. This includes assessments, indicator development and maintenance, and contributions to hosting the European Reference Model on municipal waste;
- Provide inputs as needed to other EEA assessment activities, including on green economy, circular economy, resource efficiency, and State of the Environment reporting;
- Contribute to regional and global waste policy, including the OECD, UNEP and the UN Commission on Sustainable Development;
- Contribute to communication of EEA messages on waste.
- Contribute to the EEA's cooperation with Eionet on waste, including organising Eionet workshop, webinars and consultations.

## **SELECTION PROCEDURE:**

A Selection Committee is set up for the selection procedure. It consists of members designated by the Appointing Authority and the Staff Committee. The Selection Committee is bound by the principle of confidentiality as enshrined in Article 6 of Annex III to the Staff Regulations. This works in two ways: first, it imposes obligations to ensure equal treatment for candidates; and second, it seeks to protect the Selection Committee to ensure that its decisions are totally impartial.

The Selection Committee adheres strictly to the conditions of admission laid down in the vacancy notice when deciding whether or not candidates are eligible. Candidates admitted to a previous selection procedure will not automatically be eligible. **Candidates are strictly forbidden to make any contact with the members of the Selection Committee, either directly or indirectly. Any infringement of this rule will lead to disqualification from the selection procedure.**

Should the Selection Committee discover at any stage in the procedure that the candidate does not meet one or more of the general or special conditions for admission to the selection procedure, the candidate will be disqualified.

The Selection Committee decides on those candidates who are admitted to the selection procedure in accordance with the requirements as specified under eligibility criteria. The applications of the candidates admitted to the selection procedure are reviewed to establish whether or not they show evidence of all requirements as specified under selection criteria. The Selection Committee will invite for an interview up to a maximum of 10 candidates that they deem best qualified. The interview will be held in English and the candidate's knowledge of other languages will also be assessed during the interview. Candidates invited for an interview will be asked to undergo a written test in the area of expertise required for the post. The test and the interview will take place in Copenhagen (Denmark) where the EEA has its seat and where the place of employment is.

At the end of the interviews the Selection Committee will submit the list of suitable candidates to the Appointing Authority who will decide on the appointment of the successful candidate and the establishment of a reserve list for the post advertised or similar posts that may become available. This usually follows from follow-up recruitment interviews conducted by the Appointing Authority with the suitable candidates. Candidates shall note that inclusion on the reserve list does not guarantee recruitment. Recruitment will be based on availability of posts and budget.

The reserve list for this post will be valid until 31 December 2019 and may be extended at the discretion of the Appointing Authority.

Prior to contract signature, the successful candidate will be asked:

- to provide original or certified copies of all relevant documents proving his/her eligibility, including a police certificate confirming the absence of any criminal record;
- to undergo a compulsory medical examination to establish that he/she meets the standard of physical fitness necessary to perform the duties involved.
